 - a. The ASC will request that fair staff retain responsibility for checking appropriate paperwork
 - b. The fair will hire and pay the judge, unless otherwise arranged.
 - c. The ESE coordinator will work with fair staff to record points and help facilitate the show.

2025 Maine 4-H Working Steer Team ESE Tryout Exceptions

Historically, youth have been required to attend a minimum of 2 out of 3 tryouts and average at least 28 points from the two highest days to be eligible for ESE. As our commodity continues to evolve it is imperative that we continue to work together to foster a positive experience for all.

As such, the ASC is prepared to review case by case exceptions to the requirements for the following extenuating circumstances:

1. Death of an immediate family member
2. Natural disaster
3. Emergency or serious illness/injury of member
4. Hospitalization of member or immediate family member

The following situations do not constitute an extenuating circumstance and will not receive an exception: birthday parties, vacations, concerts, etc.

To request an exception, the member and parent must contact the ESE Coordinator directly to explain the nature of the request in writing. The ASC **will not** contact members to extend an offer of exception.

The ASC will review each situation as appropriate. It is important to note that a request does not automatically guarantee an exception will be made. The ASC may request that the member complete one or more of the following alternative qualifications:

- A written letter from the member explaining the need for an accommodation or exception, their goals for attending ESE, and how they plan to ensure their preparation for success.
- A maximum of one (1) alternative qualifier date if appropriate shows remain available
- Attend ESE as a team apprentice

Members will be given a timeframe to respond to the ASC following a response to the members request. If conditions are not met, the member will be unable to attend ESE under an exception.
