

Cheese Makers Task List 2
Generated at the American Dairy Goat Association Conference
Held in S. Portland, ME
10/23/14

Typical tasks/concerns for cheese makers associated with:

Milking

- Twisting to the side
- Hand milking
- Bending
- Repetitive up and down

Cheese Room

- Multiple gallons of milk to carry up to 2x/day
- Scooping cheese from vat
- Lifting/pouring milk
- Awkward getting into the vat

Animal Care

- Lifting hay
- Large animal handling
- Cleaning stalls

Solutions generated from the group:

Milking

- Fit the milking set up to the human who is milking

Cheese Room

- Rubbermaid Tote/Tubs – 18 lbs.
- Stackable containers to market
- Kids sandwich art whiteboard to advertize specials – light weight

Animal Care

- Deer hunting cart to load hay, rolls well 
- Teach goats to lead when young
- Compost in place, utilize hoop house
- Utilize Craig's List – look for adds for gardeners looking for U-clean out manure
- Dolly's to haul grain/hay

- Plastic kids sleds for hauling 

- Ice fishing sleds for hauling 

Human Care

- Stretching & exercise routine
- Eat, drink, take breaks
- Farm layout
