Kristy Ouellette, Extension Educator
4-H Youth & Family Development
Androscoggin & Sagadahoc Counties

February

- Successfully conducted a three day Science intensive with 9 (5-8) grade students to prepare them to teach a science fair in Lewiston. 40 community members attended the science fair.
- Continuing to plan 4-H @ UMaine, which is an annual event to bring youth to campus in May.
- Working with the Williams Cone School in Topsham as a planning member of their science camp, which will occur in July. 4-H will offer training and graduate students to provide this week long day camp for elementary students.
- Prepared an Emerging Program Concept Paper highlighting 4-H Science in alignment with UMaine’s Blue Sky Initiative.
- Continuing support of Lewiston School department’s new summer school framework. Aligning 4-H Science to their needs.
- Tech Wizards Programming started at three sites in Androscoggin County (Edward Little, Hillview, and Lewiston Middle School)

March

- Designing and planning Mt. Ararat Middle School Science training for grade 6 teachers in April.
- Conducted class one of a six week science explorer session at Williams Cone School.
- Working on a federal grant proposal to provide services to at risk students in Androscoggin, Cumberland and Penobscot Counties.
