Frank Kern from Drexel will cover labeling, best-use guidelines, pests, weeds, disease control for their blueberry products. The PPE, REI, rates and timing for these products will be discussed.

Shane will discussing grid soil sampling and custom application.

Jonathan Stevens from Syngenta will cover labeling, best-use guidelines, pests controlled, PPE, REI, rates and timing for each of the following products:

- Callisto – Bravo – Tilt

Steve London will discuss the use of adjuvants to enhance the efficacy of certain pesticides, by relating to pesticide labels which refer to the use of surfactants, or enhancements like a nitrogen products, velossa and fertilizers, liquid and dry.

Steve London will follow up with an open forum on topics the growers would like to discuss in “Preparing for 2017 Season.”

WE WILL BE REQUESTING THAT THE BOARD OF PESTICIDES CONTROL AWARD POINTS FOR ATTENDANCE. THANK YOU.

We look forward to seeing you!
