

**Being a parent is a
really important job...
and it isn't always easy.**

Every parent deserves support along the way.
Our certified Family Visitors are here to help.
Let us be your partners in parenthood.

A great start for you... a brighter future for your baby.

Family Visitors are a group of caring professionals certified in early childhood development. We know you want the best for your child as they grow, and we are here to offer personalized support along the way. Every visit is completely free, and we'll meet you at home or at a location you choose, at a time that works for you. Visits can begin as early as pregnancy and continue until your child turns 3.

We will talk with you about your child, offer information and encouragement, and share activities and resources to help you support their healthy development.

MAINE FAMILIES: More than a visit,
an investment in a brighter future.

Completely voluntary. 100% FREE.
