

Cooperative Extension

Information you can use, research you can trust.

Carrying Out UMaine's Land-Grant and Sea-Grant Mission:

Cooperative Extension County Offices

Extension's network of local offices is staffed with educators who provide practical, research-based information to local communities.

Maine Agricultural & Forest Experiment Station Research Facilities

The Experiment Station's facilities and forests support integrated research and Extension activities.

Cooperative Extension 4-H Camps

Extension's 4-H youth development program includes Blueberry Cove Camp, Bryant Pond Camp, and Tanglewood Camp.

Marine Extension Team Facilities

A collaboration between UMaine Extension and Sea Grant, the Marine Extension Team provides coastal communities with scientific information and assistance.

UMaine Extension is your doorway to University of Maine expertise. For over 100 years, we've been putting university research to work in homes, businesses, farms, and communities—in every corner of Maine. Our educational efforts focus on the **Maine Food System**, and **Positive Youth Development** through 4-H programs with a focus on STEM disciplines.
