   - That they will need to bring facemasks and other materials for safety. If clubs need face-coverings please contact your county office.
   - Any materials needed for completing their project work.
   - Remind participants that if they are not feeling well they should not attend the meeting. If they answer yes to any of the questions below they should stay home.
     - Do you have a cough or a sore throat?
     - Do you have a fever or do you feel feverish?

DURING CLUB MEETING

- Require everyone to wear a face covering even when outside until there is six feet of social distance between participants. Examples when it would be okay to remove masks:
  - When participants are socially distanced in their own designated space for the meeting. This would apply to outside meetings only, when meeting inside face coverings must be worn.
  - When participants are eating food (and properly distanced).
- Work with participants who may not be able to wear a mask due to medical restrictions, please consult with 4-H staff about making an accommodation that would allow the youth to participate in the meeting in another way. It would not be okay to allow a participant to still attend the meeting and not wear a mask.
- Have masks available in the event that a participant forgets to bring one.
- Maintain social distancing (6 ft.) throughout the activity. Household members are the exception.
- Avoid sharing materials whenever possible. Disinfect shared materials between users when materials must be shared.
- Have a bin marked "clean" for picking up materials.
- Have a bin marked "dirty" for dropping off used materials.
- Make sure a trash can is available.
- Have participants wash or sanitize hands as appropriate throughout the meeting.
- Remind participants not to share chairs, tools, or other materials. If project materials must be shared, (for example a microscope to look at a water sample), disinfect between use.
