4-14 Documentation for USDA GAP audit question 4-14
This farming operation has a written policy that an organized pest control program has been established.\textsuperscript{4-15} This is included as part of the food safety and security program of this farming operation.

Service reports are available under documentation 4-14. The food safety and security program of this farming operation is attached under documentation P-1.

The food safety and security program of this farming operation is attached under documentation P-1.

\textsuperscript{4-15} Documentation for USDA GAP audit question 4-15
Should ice (manufactured on site or not) or cold water be used for cooling, the source of the water will be potable.\textsuperscript{4-17} This is included as part of the food safety and security program of this farming operation. The food safety and security program of this farming operation is attached under documentation P-1.

Water test reports are available under documentation G-3.

\textsuperscript{4-17} Documentation for USDA GAP audit question 4-17
Should ice (manufactured on site or not) be used for cooling in this farming operation, there is regularly scheduled cleaning and sanitizing of the ice production facility (if on site), ice storage facility and any ice handling or transportation equipment.\(^{4-18}\) This is included as part of the food safety and security program of this farming operation.

The food safety and security program of this farming operation is attached under documentation P-1.

Cleaning and sanitizing schedule of the ice production facility (if on site), ice storage facility and any ice handling or transportation equipment:

4-24 Documentation for USDA GAP audit question 4-24
This farming operation has a written policy stating that produce is only to be shipped with like produce. Fertilizers, pesticides, meat poultry, fish or similar products will not be mixed in the trailer. This is included as part of the food safety and security program of this farming operation.

The food safety and security program of this farming operation is attached under documentation P-1.

4-25 Documentation for USDA GAP audit question 4-25
This farming operation has a written policy stating that should a manifest indicate a temperature to maintain during transport, all efforts will be made to insure that that temperature is maintained. This is included as part of the food safety and security program of this farming operation.

The food safety and security program of this farming operation is attached under documentation P-1.

4-26 Documentation for USDA GAP audit question 4-26
This farming operation has a written policy stating that produce will be loaded into the trailer with the utmost care to prevent damage and contamination. Should load shifting be an issue in the transport, all reasonable steps will be taken to prevent any shifting of the load during transit.\textsuperscript{4-27} This is included as part of the food safety and security program of this farming operation.

The food safety and security program of this farming operation is attached under documentation P-1.

\textsuperscript{4-27} Documentation for USDA GAP audit question 4-27
Should this his farming operation have a written policy regarding the wearing of hair nets/beard nets in the storage and transportation areas, it is being followed by all employees and visitors. 4-29 This is included as part of the food safety and security program of this farming operation.

The food safety and security program of this farming operation is attached under documentation P-1.

4-29 Documentation for USDA GAP audit question 4-29
Should this farming operation have a written policy regarding the wearing of jewelry in the storage and transportation areas, it is being followed by all employees and visitors. This is included as part of the food safety and security program of this farming operation.

The food safety and security program of this farming operation is attached under documentation P-1.
This farming operation records the source of incoming product and the destination of outgoing product which is uniquely identified to enable traceability. This is included as part of the food safety and security program of this farming operation.

The food safety and security program of this farming operation is attached under documentation P-1.

Documentation for this can be found under G1.
